

# NEW YORK POST

March 12, 2015

No, it's not all old exposed brick and cast-iron columns down here — this newly renovated condo penthouse on Lafayette Street is all "modern masterpiece," with "ultra-luxurious finishes" from the "top-of-the-line" kitchen to the two "spa-like" bathrooms (and two bedrooms with California closets). Oh, and the 1,466 square feet of interiors is augmented by a 132-square-foot private terrace. Some of the 21st-century amenities include surround-sound speakers, motorized blinds, WiFi security cameras, a motorized projection screen, and five wall-mounted iPads to control it all. (The apartment is available furnished.) **Agents: Tal Alexander, Douglas Elliman, 212-350-8541; Oren Alexander, Douglas Elliman, 212-350-8561.**
